

LOS ANGELES PACIFIC
UNIVERSITY

Bachelor of Science in **SUPPLY CHAIN MANAGEMENT**

ABOUT THE PROGRAM

Preparation for a successful career in supply chain management requires both a broad theoretical knowledge base as well as a practical skill set. Designed by experts in the field, the Bachelor of Science in Supply Chain Management (BSSCM) equips students with the professional knowledge and practical skills needed for a successful career in the supply chain management industry.

CAREER OPPORTUNITIES

With the explosive growth of online commerce, the demand for optimized processes surrounding supply chain, logistics, and distribution is significant. In turn, the demand for the skilled professionals in the field has also grown. Graduates with a degree in Supply Chain Management have a number of career opportunities related to the field within logistics and distribution management, operations, procurement and supply chain management.

Highlights:

- Career-relevant coursework based on current industry trends
- Dual focus on theoretical foundation and practical skills
- Broad focus on business, management, and supply chain management resulting in preparation for a wide variety of careers in the field
- Integration of biblical concepts and principles with discipline specific topics
