

LOS ANGELES PACIFIC
UNIVERSITY

Bachelor of Science in **SUPPLY CHAIN MANAGEMENT**

ABOUT THE PROGRAM

Launch Your Supply Chain Career with a BSSCM Degree. Developed by industry experts, our Bachelor of Science in Supply Chain Management program provides the comprehensive knowledge and practical skills needed to succeed in this dynamic field. A degree in Supply Chain Management opens doors to diverse and in-demand careers focused on the efficient flow of goods and services. Ultimately, a supply chain management degree provides a strong foundation for a dynamic career across various industries, ensuring the smooth and cost-effective movement of products.

CAREER OPPORTUNITIES

With the explosive growth of online commerce, the demand for optimized processes surrounding supply chain, logistics, and distribution is significant. In turn, the demand for the skilled professionals in the field has also grown. Graduates can pursue roles in planning and analysis (like planners and analysts), procurement and sourcing (such as purchasing and sourcing managers), and logistics and operations (including logistics and transportation managers, and warehouse and distribution specialists). Furthermore, opportunities exist in management and leadership positions within the supply chain, as well as specialized roles like consultants and import/export specialists.

Highlights:

- Career-relevant coursework based on current industry trends
- Dual focus on theoretical foundation and practical skills
- Broad focus on business, general management, and supply chain management resulting in preparation for a wide variety of careers in the field
- Integration of biblical concepts and principles with discipline specific topics
